**Ref: Request for a Joint Communiqué Condemning the Recognition of Somaliland Dear Colleagues and Comrades,**

On behalf of the Somali Social Unity Party (SSUP), and in the spirit of solidarity that binds us as members of the Arab Social Democratic Parties, we write to respectfully request your collective engagement on a matter of deep concern to the Somali people and to the principles we jointly uphold. SSUP is gravely concerned by the recent decision of the State of Israel to recognize Somaliland as a separate entity. This action undermines the sovereignty, territorial integrity, and unity of the Federal Republic of Somalia at a critical moment when the country is advancing toward democratization, stability and inclusive social development after decades of conflict and fragmentation.

As social democratic parties committed to justice, self-determination, respect for international law, and peaceful coexistence among nations, we believe it is both timely and necessary for our alliance to speak with **one united voice**.

In this regard, SSUP respectfully proposes the issuance of a joint communiqué by the Arab Social Democratic Parties, condemning this recognition and reaffirming support for the unity and territorial integrity of Somalia, in line with international law and the collective will of the Somali people.

We firmly believe that a unified position from our alliance will carry moral, political, and symbolic weight, reinforcing our shared commitment to peace, democracy, and social cohesion across the Arab world and beyond.

We look forward to your solidarity, guidance, and collaboration on this important matter and stand ready to contribute to the drafting and coordination of the proposed joint communiqué. Please accept, dear colleagues, the assurances of our highest consideration and fraternal solidarity.

**Yours sincerely,**

**Yassin Maahi Party Leader/Chairman**
